

Heavy Duty Magnetic Base

Series AA-160

- A Powerful Permanent Magnetic type base holds firmly to any steel or iron surface- horizontally, vertically or up- side down.
- The base is energized for attachment on flat surfaces and a 'V' slot facilitates gripping of the stand on shafts with a diameter range of 20 to 120 mm.
- Simple and quick setting is obtained by a clamping of the extension arms with metallic clamps. Thus providing vibration free accurate inspection.
- Two extensions arms with fine adjustment for dial gauge provides more accurate inspection & increased magnetic stand life.

Specifications:

Sr. No	Cat. No.	Base Size in mm L X W X H	Total Height of Base from bottom In mm	Magnetic Pull
1	AA-1604	70 X 48 X 64	295	75 kg
