

# Magnetic Carbide 'V' Blocks

## Series AA-180

**Introducing** for the first time in India “Crystal” special type Carbide Magnetic 'V' Blocks. These 'V' blocks have been specially built for applications where heavy inspections are involved. Its Advantages are as below:

- Inspection area contains carbide tips so that, we get better life in the big 'V'.
- Efficiency of inspection increases considerably due to carbide in the Big 'V' over normal H.S.S 'V' blocks.
- Accuracy is maintained for a longer period of time.
