

Magnetic Base

Series AA-161

AA-1616

AA-1617

- A powerful Permanent Magnetic Base holds firmly to any steel or iron surface-horizontally, vertically or up-side down.
- The dial stand can be locked in any desired position in 360° by a central locking mechanism provided on the top assembly.
- There is a clamping hole intended for Dia 8mm stem and also there is a dovetail clamp for lever type dial indicator.
- Fine adjustment is provided.
- Magnetic pull provided in AA-1617 is on the higher side where robust and rigid clamping is required.
