

## Tool Makers Parallel Clamps

### Series AA-143

- Toolmaker parallel clamps are extremely useful for holding work piece together in tapping, drilling & various machine setups with maximum strength and rigidity.
- The ends of the jaws are round to permit clamping under shoulders or in recesses.
- The clamps are hardened & ground to 55 HRC  $\pm$  2 HRC.

### Specifications:

Sr. No.	Cat. No.	Length of Jaws in mm	Opening of Jaws in mm
1	AA-1431	38	17
2	AA-1432	50	25
3	AA-1433	75	40
4	AA-1434	100	65
5	AA-1435	125	90

Sr. No.	Cat. No.	Length of Jaws in mm	Opening of Jaws in mm
6	AA-1436	150	125
7	AA-1437	200	150
8	AA-1438	250	200
9	AA-1439	300	250

## Levelling Plate

### Series AA-271

- Tested single plate design. Leveling plate pivots on one point with two leveling screws to provide solid three point bearings.
- Fine pitch leveling screws are provided. With hardened & ground 150 x 150 mm working surface having flatness within 0.010mm.
- A small reference hole with spirit level indicating center at pivot is provided on the top surface to assist in leveling the plate.

### Specifications:

Sr. No	Cat. No.	Size in mm
1	AA-2711	150 X150
