

Transfer Blocks

Series AA-155

- Transfer Blocks are very useful for grinding thin & odd shape jobs.
- They are used with magnetic chucks & do not have their own magnetism.
- Magnetic Transfer Blocks provide the simplest method of extending the flux of any magnetic chuck with parallel poles to support work pieces above the chuck face.
- Always place the transfer blocks with their laminations in parallel to the chuck poles.
- They are grounded in matched pairs.
- They are also available in 90° 'V' type for clamping & grinding of round jobs.

Specifications:

Sr. No.	Cat. No.	Size in mm L X W X H
1	AA-1551	50 X 100 X 35
2	AA-1552	60 X 75 X 30
3	AA-1553	50 X 75 X 75
4	AA-1554	50 X 100 X 50

Sr. No.	Cat. No.	Size in mm L X W X H
5	AA-1555	80 X 120 X 25
6	AA-1556	60 X 100 X 25
7	AA-1557	50 X 100 X 20

We Also Manufacturer the Transfer Block As Per the Customer Requirement.

'V' Type Transfer Blocks

Series AA-156

Specifications:

Sr. No.	Cat. No.	Size in mm L X W X H
1	AA-1561	50 X 60 X 45
2	AA-1562	110 X 60 X 45
3	AA-1563	75 X 65 X 35
4	AA-1564	100 X 65 X 65
5	AA-1565	60 X 60 X 45
